Professional Summary

Highly skilled professional in construction and remodeling with extensive experience in web development, project management, client communication, and 3D modeling. Proven ability to handle multiple projects simultaneously while maintaining high standards of quality and efficiency. Fluent in Spanish and basic English, providing exceptional client support and personalized service.

Professional Experience

Westhaven Construction

Position: Construction and Remodeling Specialist

Location: Miami, Florida

Dates: January 2020 – Present

- **Web Development and Maintenance:**
 - Created and maintained an interactive website for construction and remodeling of houses and penthouses.
 - Ensured the website allows supervisors to access plans, product specifications, and subcontractor documents for each project at any time.
 - Organized project documents for easy access and reference by supervisors and clients.
- **Design and Client Communication:**
 - Designed each unit considering existing installations.
 - Maintained constant communication with clients until design approval.
 - Worked directly with clients in English and Spanish, using real-time design programs.

- **3D Modeling and Rendering:**
 - Developed 3D models for rendering and creating plans for various unit elements such as vanities, kitchen cabinets, entertainment centers, linens, closets, showers, laundries, wet and dry bars, electrical plans, floor layouts, and custom furniture.
 - Worked closely with clients to ensure designs met their expectations.
 - Rendered views of finished units and assisted in selecting finishes.
 - Created 360-degree renderings with embedded links to plans and product specifications for comprehensive visualization.
 - **Project Management:**
 - Uploaded all unit plans to the website for continuous supervisor access.
 - Provided personalized client access to their specific projects.
 - Offered personalized phone or video support with supervisors and clients, ensuring near real-time updates to plans.
 - Successfully managed up to ten different projects simultaneously.
 - **Special Techniques:**
 - Specialized in faux finishes, imitating marble and wood textures for access panels and outlets.
 - **Art and Design:**
 - Over thirty years as a fine artist with numerous exhibitions available at www.abelquintero.com.
 - Advanced understanding of colors and their distribution in spaces.
 - Conducted client briefings to determine and guide them through the design process.
